SOLUTIONS

DICHIR Analytics Services | DAS

Platform serves as a centralized repository for storing and retrieving patient data, enabling them to make well-informed decisions about patient care.

ClincaCheck

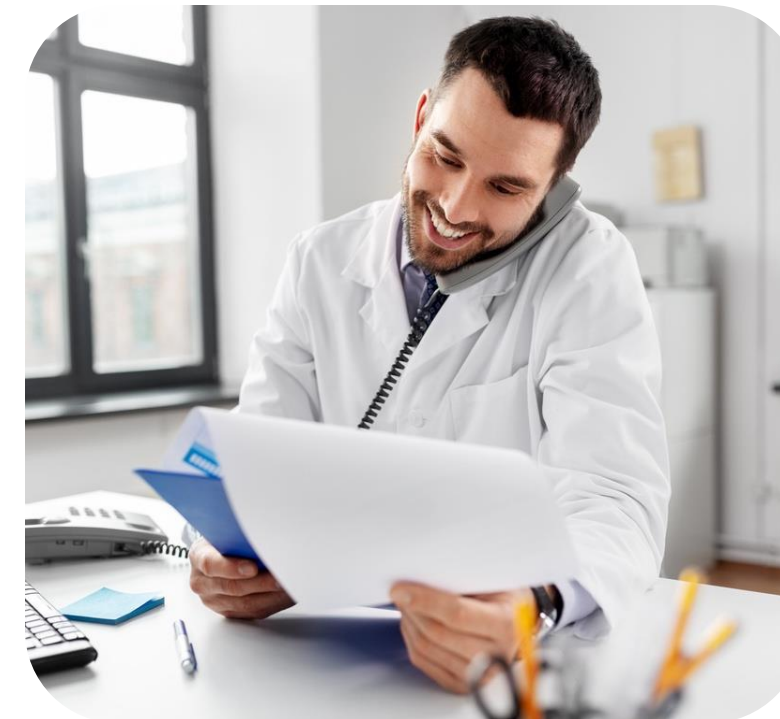

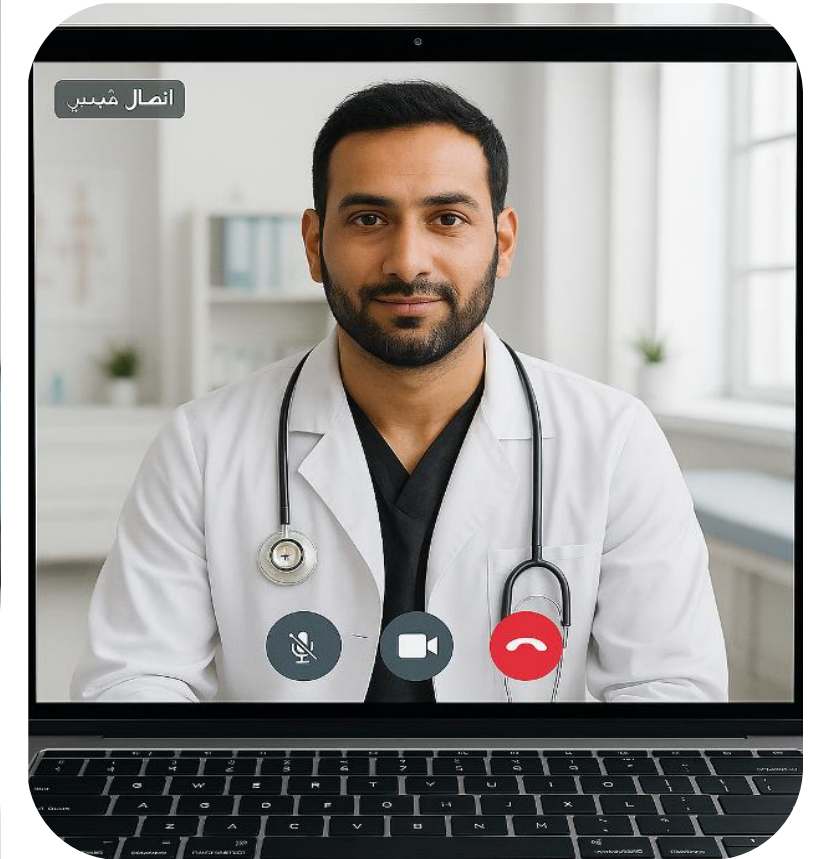

We bring all your data together—regardless of structure or format—into a unified, standardized platform that delivers real-time, actionable insights

DICHIR

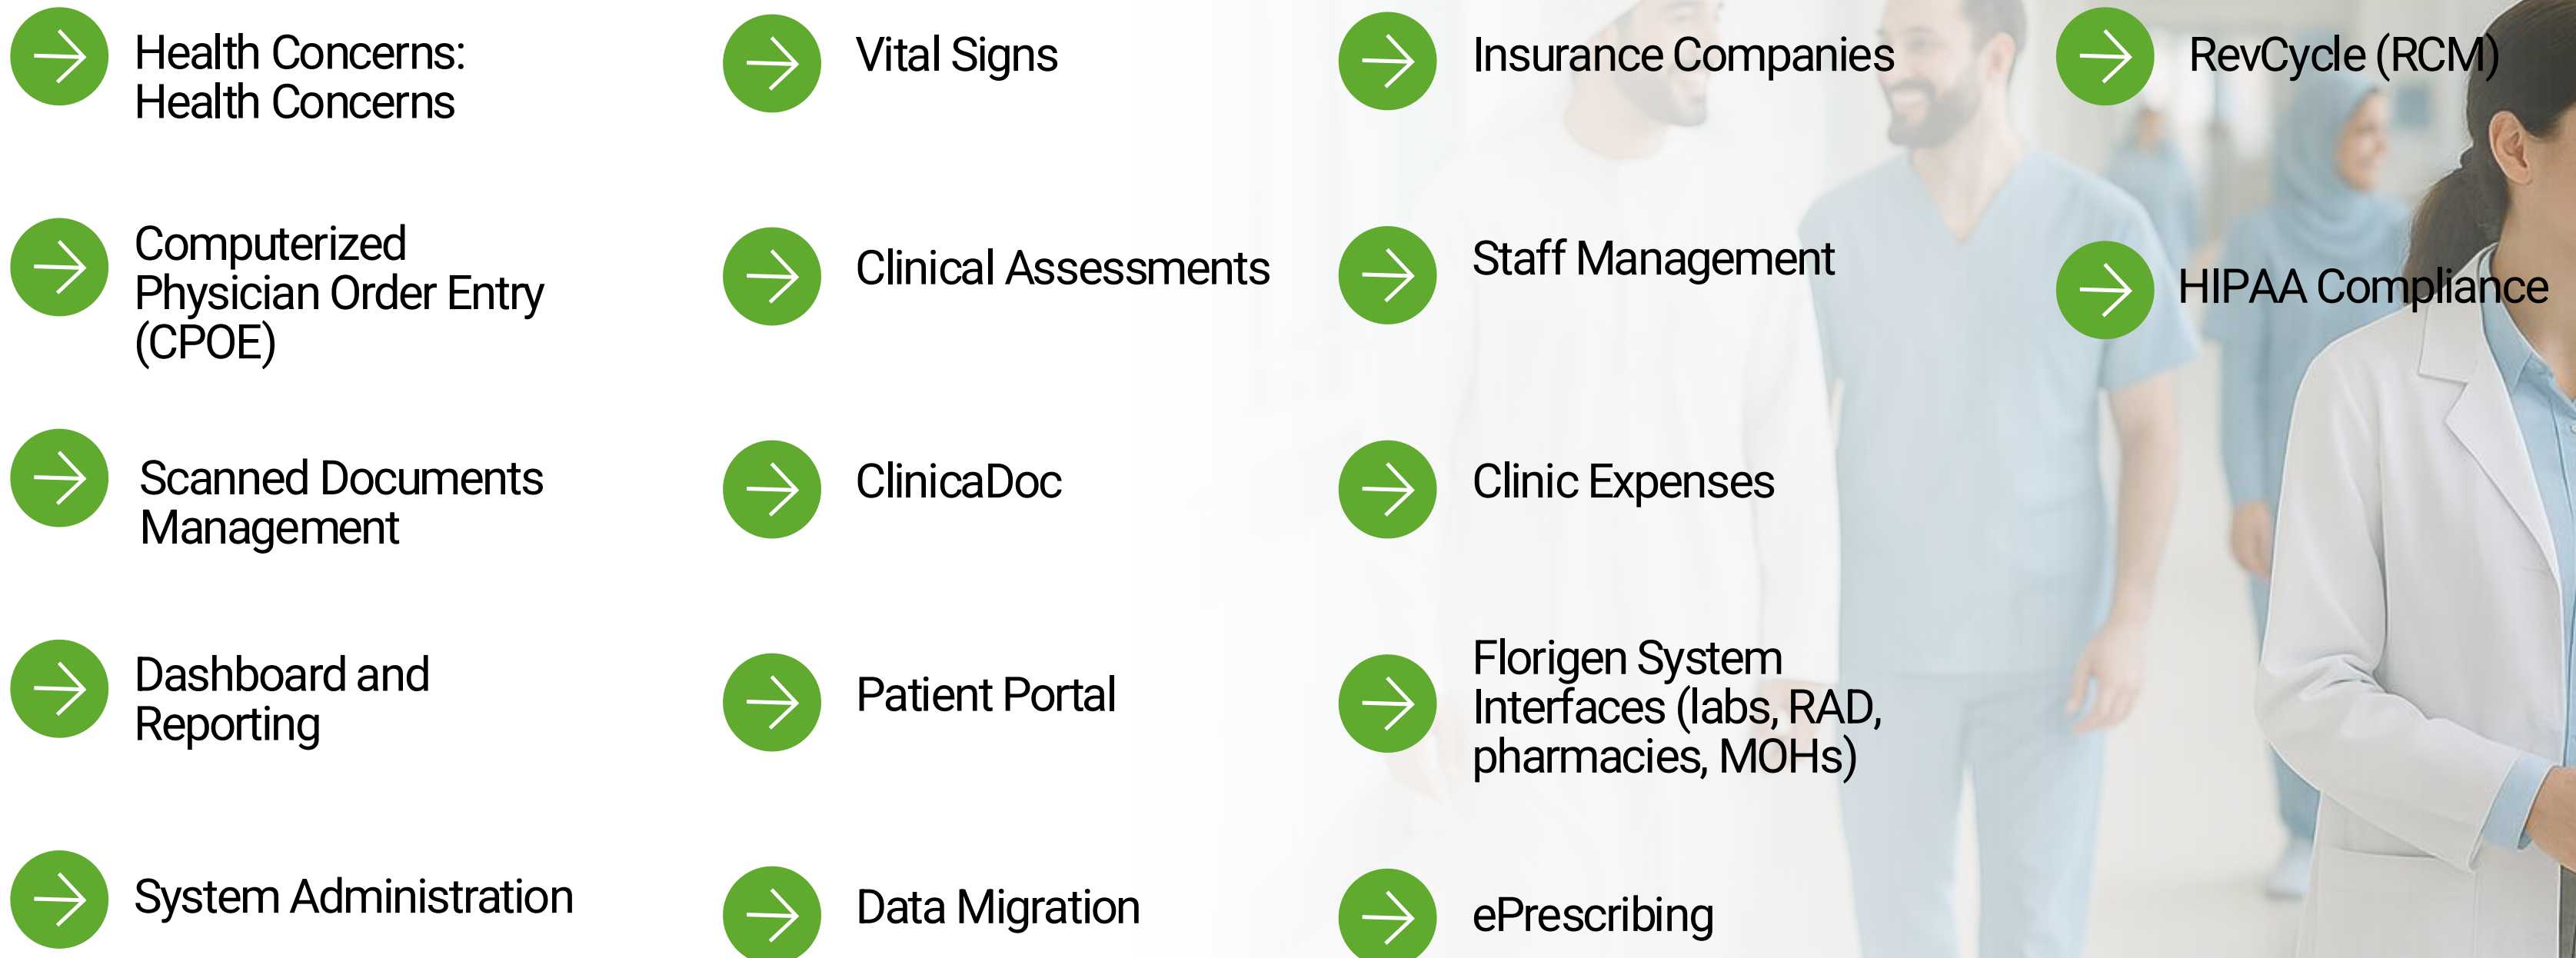

ClinicaCheck

ClinicaCheck offers patients convenient online access to their medical records, secure communication channels with healthcare providers, and the ability to manage appointments. For healthcare providers, the platform serves as a centralized repository for storing and retrieving patient data, enabling them to make well-informed decisions about patient care through a robust built-in system insights tools.

ClinicaCheck Features

- 
- The background of the slide is a blurred photograph of a hospital hallway. In the foreground, a female doctor in a white lab coat and blue shirt is smiling and looking to the right. In the background, several medical staff members in blue scrubs are walking. A sign on the wall reads "عيادات خارجية" (Outpatient Clinics) with an arrow pointing left, and "مخّظ" (Laboratory) with three green dots.
- Health Concerns: Health Concerns
 - Vital Signs
 - Insurance Companies
 - RevCycle (RCM)
 - Computerized Physician Order Entry (CPOE)
